

What's in your box?

- 1 x Ready to shine neon sign
- 1 x Set of advertising screws
- 1 x Power supply
- 1 x Extension cable
- 1 x Dimmer (optional)

How to install your sign?

Unpack
your sign
from the box

Find a wall
max 2m
away from an
outlet

Use the advertising
screws to mount the
sign on the wall with
the holes in your sign.

Anything Wrong?

contact us via the chat on yellowpop.co
or by email studio@yellowpop.co

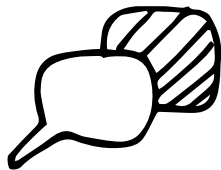

Plug the dimmer
between the sign
and the power supply

Plug the power supply
to the outlet and make
it shine

Use your dimmer to
adjust brightness and
turn the sign on/off

Morning Sunshine

Hello!

yellowpop was created from our fear of empty walls (#FOEW).

We wanted to find a simple way to fill an empty room with joy and warmth. Our inspiration came from where people are happiest – outside, soaking up the warm glow of sunshine.

Neons have a way of bringing immediate joy to everyone around them, thanks to their warm glow and upbeat vibes. Seeing that glow is what keeps us excited to grow and innovate on our product offerings.

We just wanted to say a big thank you for your order and we hope you'll love your neon sign as much as we loved creating it. It was 100% handcrafted in our studio and we're sure it will look sensational in your space.

yellowpop pieces are guaranteed to add a pop of positive vibes, so why not share that good feeling with your friends and followers on Instagram?

Post a picture of your neon and tag us @yellowpop_studio

Remember to use the hashtag #FOEW (Fear Of Empty Walls).

We can't wait to see your photo.
